A member of the public expressed concerns regarding public transport in the village and particular the reduced number of trains stopping in the village. She suggested that the service could possibly be a flag down service which is in place in other rural areas. A consultation with villagers was suggested. There will be an agenda item at the January Parish Council meeting in order to discuss this further. A further member of the public added that a possibility may be for the PC to consider the purchase of land for a car park close to the station. He also spoke about the 'grips' which allow rain water to flow away from the village. These have not been maintained for many years. This member of the public also brought up the fact they had received a leaflet through their door regarding a neighbourhood watch type network.
